CM3 Download link - <https://www.mediafire.com/?8xxh5pq958v9v5a>

Please bear in mind that you need to install the patch to make it work under recent versions of Windows

Is there any way to play it without the cd? Because the game in the link requires the cd and I don't have (like a lot of people). Is there a no-cd crack, like for cm 0001?

Thanks Cam, but I did that already. Don't find any trustworthy link. Isn't there a simple solution? You know everything about cm0001, how is it done there? Can the process be copied for cm3?

Gamecopyworld is the same one I used for 0001 & is first which comes up in a google search for championship manager 3 no cd crack.

Easier to just buy it. You can get it from 1p on Amazon with postage takes it to barely over £2.

I am trying to play it, but I don't have the CD or a crack. Does anyone knows if it's possible to play it if I download a save game?

Currently, I can run the cm3.exe and start a new game, but when I choose the countries it asks for the CD.

(As I live in South America, I don't think I can get a copy easily).

Here's how to get CM3 up and running from previous thread with a link: <https://www.mediafire.com/?8xxh5pq958v9v5a>

1. Use AnyBurn program and convert its cm3.nrg file into an iso file ready to mount.
2. Run the setup.exe file. If its not loading up, go to task manager and into the details section, right click and access analyze wait chain. Then press end process on file that was preventing the file from installing.
3. Install the CM3 file and eventually you be up and running with the game.

Hope it helps for anyone who can't access the game from anywhere.

No, use the 0001 editor - <https://www.sendspace.com/file/44ie6e> , it doesn't delete histories like the 0102 one.

Hi,  
Has someone the original cloned image of the game? (I think the first release of Championship Manager 3, released 1999 spring)

Is anyone playing CM3 currently? CM3 and CM99-00 have my favourite version of the database.
