### CM3 (98/99) Original data set

Cam,

I remember you doing a thread on CM3 before. I still play it but version (3.04) (The sold out version) but I want to play the very first data set which came with the initial release. Do you have this dataset that you could send to me?

I can't find the thread you did on it as I think you uploaded it then?

Cheers,

Sam

I'm in the exact same situation, I have the sold out version and the database is for the 99/00 season though set in 1998.

☐ 08-04-15,  08:26 AM                                                              #3

It must be in a thread somewhere on forum as I uploaded it for somebody a couple of months back. Will upload again when I have time in next few days.

16-04-15, 06:12 PM                                                          #5

Anyone know how to change the fonts on this version? Even have a no cd patch for 3.04e.

You can't change fonts and I have never found a no cd patch either.

Hello could someone re-upload the data file?

Thank you.

Is this for 3.04? To play the game with the original database we need 3.04.

3.04 is a patch and not the original database with Maradona as a player.

hi lads

is there any chance someone could get me a screenshot of Maradona from the original database?

want to stick it on my twitter - https://twitter.com/CM_9798

As he was a free transfer you can't see how amazing he was, only when you went into the editor and saw his PA200.

At the risk of going over old ground can anyone link me the original data-set ('Maradona' one) as discussed earlier in the thread?

I've only got the CM3 disk with the 99/00 data as default (and I've already got 99/00 as a separate game!).

The version earlier in the thread isn't the out-of-the-box version I think; I play as Spurs and that version has Freund and Sherwood signed-up for them (making it a Oct/Nov 1998 data-set), I remember the original database being circa the start-of-season squads. Looking to take-over that team and do things my-way and make different signings (Maybe Maradona himself!)

If anyone can link me this 'holy grail' of CM3 databases that would be great. It needs to be archived and preserved.

"IT BELONGS...IN A MUSEUM!!!!"

🙂
