Problem in change Norway -> Uruguay

Hello guys! How are you?
I'd be thankful if someone could help me doing one think.
Following Saturn recomendations in this thread:

<https://champman0102.co.uk/showthread.php?t=801&page=33>

I'm trying to make a substitution of leagues: change Norway to Uruguay.
So I followed these steps:
- I've changed the nationality and continent of Yugoslav Second Division East, Yugoslav Second Division North, Yugoslav Lower Division to South America and Uruguay, putting 16 Uruguayan clubs in Yugoslav Second Division East and 16 Uruguayan clubs in Yugoslav Second Division North.
- I disabled the Norway Cup.
- I made the following changes in the offsets, to make an Uruguayan league. My intention was to generate a .patch file of the Uruguay league in order to instal the patch in any .68 database. But I'm getting an error in NORWEGIAN_PREMIER_DIVISION and in NORWEGIAN_FIRST_DIVISION. If anyone here knows what was my mistake doing this, please, tell me! I've made these modifications:

Restructures the Norwegian Eliteserien from 14 --> 16 teams.

NORWEGIAN_PREMIER_DIVISION -->> Yugoslav Second Division East 9CF6BC -->> **19E**
NORWEGIAN_FIRST_DIVISION -->> Yugoslav Second Division North 9CF6C0 -->> **19D**
NORWEGIAN-CUP -->> Yugoslavian Second Division South 9CF734 -->> **1A0**

Try changing the above, you just missed the second byte value of those competitions in the club_comp.dat file (done it many times myself!).

Thanks to the reply, Saturn.
I've successfully changed Norway by Uruguay. I've runned the game for 20 years without errors with the Uruguay league, but once there

is only 36 uruguayan clubs in game, I've disabled the "Norway cup", because I'll need 128 clubs to run this cup. I made some instructions on how to install patch. I think it was OK. I could post it if anyone be interested in it.

Sí, debería publicarlo cuando regrese de vacaciones en aproximadamente 7 días. Pero recuerde, con el parche no necesita cambiar el .exe, pero sí necesita colocar los equipos en las divisiones que se cargarán en lugar del noruego. Explicaré cuándo publicar. Gracias

Uruguayan patch - What does this patch do?

- Exchange from Norway to Uruguay

But the Uruguayan league does not exists in original CM db, so, you have to follow these steps first, before aplying the patch:

- 1) Change continent - South America and country - Uruguay from "Yugoslav Second Division East" by CM pre editor
- 2) Change continent - South America and country - Uruguay from "Yugoslav Second Division North" by CM Pre editor
- 3) Change continent - South America and country - Uruguay from "Yugoslav Lower Division" by CM pre editor
- 4) Use the cmexplorer and place 16 teams from the first Uruguayan division in "Yugoslav Second Division East"
- 5) Use the cmexplorer and place 16 teams from the second Uruguayan division in "Yugoslav Second Division North"
- 6) Use the cmexplorer and place at least 4 Uruguayan teams in the "Yugoslav Lower Division"
- 7) Apply the Uruguay patch, it will replace Norway with Uruguay!
- 8) With the Names Editor, change the name of competitions and awards for Uruguayans.
- 9) If you want, change the "Last Position" for each club in the divisions to reflect the real participants of the first libertadores.
- 10) If you want you can change the league Reputation too, in CM original Editor.

I've tested it for 40 years in game with no errors and in GS MOD October 2019. No idea if this process works fine in Patch V8 that you use here!

Here, the patch, apply with Flex Editor:
