

Hello and welcome to the CM01/02 expansion pack for CM97/98.

Summary

The aim of this pack is to give players a CM01/02 experience in CM97/98. The pack includes;

- 48 background images from CM01/02, as well as new splash screens for when the game starts up
- CM01/02 style fonts
- 31 existing players from CM97/98 have had their stats, positions and clubs updated to match what they were on CM01/02
- 79 brand new players have been added, with their stats copied exactly from the CM01/02 databases
- Some clubs have had their home colours updated

Installation

All you need to do to install the pack is copy the files into your cm9798 game folder, replacing the original files, but it is strongly recommended that you make backup copies of your original files first, in case you want to play the original version again.

The fonts and background images will update automatically without needing to start a new game, but the player and team databases will require a new game to be started.

You do not have to use all of the files. For example, if the fonts aren't to your taste, you can just use the backgrounds and databases, or just the databases etc.

Players

The following players have had their stats, positions and clubs updated to what they were on CM01/02;

#	First name	Last name	Nation	Club
